# Creating The Conditions To Thrive

Join us for an inspiring day of professional learning at Jubilee Park Primary School, where we've established a culture that enables teachers to thrive. This is a great opportunity to see first-hand how an open and honest culture fosters collaboration, professional growth, and wellbeing for all.

You will have the opportunity to:

- Explore how our curriculum design underpins high quality teaching and learning.
- Develop strategies for creating a supportive, transparent culture that prioritises relationships and wellbeing.
- Engage with our team and gain practical insights into how professional learning is embedded in everyday practice.

## Why Attend?

- See a real example of a school where staff development and children's success go hand in hand.
- Take away actionable ideas to implement in your own setting.
- Network with like-minded professionals committed to excellence in education.

Jubilee Park Primary School hosts many visitors each year and in order to sustain this level of hospitality, we attach a nominal charge to cover our time.

Full-Day 9.30am–3.00pm Training Events:

£100 per participant (Plus Eventbrite booking fee)
